

Adding an Icon and a Note on a Map

To add an icon and a note to a map, follow the instructions below:

1. Click the **Click for edit mode** option location in the upper left.

You are in **VIEW** mode [CLICK for edit mode.](#)

2. Place the mouse pointer in the exact location you want an icon to be placed and left click once. The *Add/Edit a Point on the Map* page displays:

1610|442|size100|

Choose the Icon that best represents the point:

	<input type="radio"/> beetle.gif
	<input type="radio"/> fireext.gif
	<input type="radio"/> flashlight.gif
	<input type="radio"/> leakypipe.gif
	<input type="radio"/> logger.gif
	<input type="radio"/> mold.gif
	<input type="radio"/> painting.gif
	<input type="radio"/> pem.gif
	<input type="radio"/> thermostat.gif

Add a mouseover note to the icon?

Do you want to link to a Location?

BPSE-Upper N-3N8

Add Icon

3. Select an icon from the list of icons.
4. From the **Do you want to link to a location** drop down, select the location name to be associated with this icon.
5. To add a note, which displays when you mouse over the icon, enter it in the **Add a mouseover note to the icon** field.
6. Click **Add Icon**. The icon is added to the map:
